

Banned Substances Control Group

Products that are BSCG Certified Drug Free™ for Elite Athletes & Professionals have been certified to be free of banned substances above established thresholds minimizing drug testing risks for athletes and other elite professionals and safety concerns for general consumers.

Dr. Catlin's 26 years experience anti-doping research and testing.

- Scientific Director of the Banned Substance Control Group
- Founder UCLA Olympic Analytical Laboratory in 1982 (IOC-accredited lab)
- Oversaw drug testing at the 1984 Summer Olympic Games in Los Angeles.
- Director, the WADA accredited UCLA Olympic Lab
- Oversaw drug testing for the 2002 Winter Olympic Games in Salt Lake City, the 1994 Soccer World Cup, and the testing of anabolic agents at the 1996 Summer Games in Atlanta.
- He has also performed testing on behalf of the U.S. Olympic Committee, NCAA, Major League Baseball's minor leagues, and the National Football League.

Re: Batch Certification – EPO-Boost - Lot#1401292

Samples of EPO-Boost - Lot#1401292 received March 27, 2014 have been analyzed by our ISO/IEC 17025 accredited laboratory for anabolic agents, stimulants, diuretics/masking agents, narcotics, cannabinoids, beta 2 agonists, beta blockers, corticosteroids, and hormone & metabolic modulators according to the BSCG Certified Drug Free™ for Elite Athletes & Professionals testing menu and method detection levels. None of the compounds included in the testing were detected. As a result, a Batch Certification is issued for EPO-Boost - Lot#1401292 as defined by the terms of the BSCG Certified Drug Free™ for Elite Athletes & Professionals Certification Agreement.

Please contact us at info@bscg.org immediately if there are any concerns or questions.

Sincerely,

Oliver Catlin
Banned Substances Control Group

EPO-Boost®

▶ 4 Complexes Promote EPO and Red Blood Cell Production ◀

1 EPO PRODUCTION

Concentrated echinacea increases erythropoietin (EPO) hormone levels

6 IRON AVAILABILITY

3 different sources of iron plus 3 nutrients for improved iron absorption

6 RED BLOOD CELL NUTRIENTS 6

6 red blood cell nutrients...all the raw materials your body needs to produce healthy RBCs

6 ANTIOXIDANTS 6

6 potent antioxidants to reduce exercise-induced inflammation for improved red blood cell production

...for Increased Speed Strength and Endurance
